

SOLLEN

FRENCH CONTEMPORARY
DESIGN FURNITURE

Made in France

SOLLEN

SOLLEN comes from the word "**Sollertia**" which means dexterity, the art of know-how.

A term dear to the team

that calls for both the durability of a piece of design and the nobility of its materials.

Made in France

our story

SOLLEN THE FRENCH CONTEMPORARY DESIGN FURNITURE, MADE IN FRANCE, was born from a happy encounter between various personalities with cross-disciplinary know-how: design, woodworking, and engineering.

Motivated by a common ambition, we challenged ourselves to **reinvent high-end design** by proposing original seating with **organic** and **elegant** curves.

SOLLEN celebrates both human creativity over the centuries and the raw beauty of nature.

SOLLEN makes the choice of an environmentally **responsible signature** at every stage of the manufacturing of our armchairs: **French manufacturing, local suppliers, a human-sized team** and **a lifetime guarantee** to contribute to a more sustainable furniture industry

SOLLEN

SOLLEN, CREATOR
OF DURABLE
AND RESPONSIBLE
FURNITURE DESIGN.

our designers

SOLLEN designs its collections in partnership with **French designers** with **proven talents and award-winning achievements**.

These collaborations give birth to elegant and innovative furniture that combines comfort, design and aesthetics.

For the creation of its Nuage range, **SOLLEN** called on the **Garrigos Design** agency: an industrial design agency founded in Bordeaux in 1994 by Didier Garrigos.

our manufacturers

SOLLEN SOLLEN attaches great importance to its manufacturers' choices.

Thus, our armchairs are shaped by **French artisans** recognized for the **excellence of their know-how** and their **commitment to environmentally friendly practices**.

Our most important manufacturers are **labeled «Living Heritage Companies»** or EPV by the French government. This label was set up to distinguish French companies with exceptional artisanal and industrial know-how and to prevent the disappearance of exceptional economic and cultural talents.

The structure of our unique seats was entrusted to our partner, a **French leader in molded wood for 60 years**.

Their perfect mastery of this technique guarantees you exceptional furniture revealing the sensuality and purity of lines, the roundness and fullness of volumes, the softness and finesse of curves, and the elegance of silhouettes.

The assembly of our seats and the realization of our tufted wool mattresses was entrusted to our partner based in the Landes, a specialist in the chair for more than half a century.

This perpetuates **the art of cabinetmaking in seats and upholstery furniture** emphasizing a family know-how in respect of French craftsmanship.

our woods

The wood essences that we select for the manufacturing of our furniture come from sustainably managed **French forests certified PEFC** for a reasonable and sustainable management of the forest.

SOLLEN therefore offers environmentally friendly design seating whose structure comes in two finishes, **walnut or oak**.

Finishes that allow our seating to integrate seamlessly into all interiors.

our fabrics

We pay special attention to the selection of our fabrics, as part of our environmentally friendly approach.

Therefore, we have chosen to offer our **NUAGE range** on a **«boucle wool» 100% recycled fabric**.

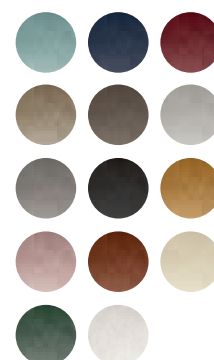

This fabric respects the Global Recycled Standard (GRS) label which **guarantees recycled textiles that meet environmental and social criteria**.

Our boucle wool fabric is available in 14 different colors to match your interior.

personalization

SOLLEN offers the «Customer fabric» option. Thus, we accept fabric coupons from our customers in order to offer a custom service that meets the most specific needs.

RANGE NU AG E.

The «**NUAGE**» collection offers a comprehensive range designed for the layout of your relaxation spaces.

This range is available in a range of cozy, welcoming designs.

A collection designed as a true invitation to daydreaming and well-being.

INSPIRATION FROM **DIDIER GARRIGOS**,
DESIGNER OF THE NUAGE RANGE:

«For this range focused on comfort and generosity, the analogy of clouds appeared to us as a source of inspiration, both for the softness and for the invitation to daydreaming that they represent.»

Light and airy, the seating in the **NUAGE range** offers a design and ergonomics that are designed for your comfort.

The unique design of the natural wood base features «hooks» with a soft curve that perfectly welcomes a tufted cushion, upholstered in boucle wool, with a generous and voluptuous appearance.

The wood adds **a natural and warm touch.**

This elegant daybed with clean lines is a true invitation to relaxation.

It meets our very contemporary need to slow down, disconnect, and stop running around: the «slow life».

Very popular in the 1950s, this daybed will take its place in a large living room, a library corner or an entrance.

SOLLEN

a committed approach, an international ambition

SOLLEN is a company that was founded in 2020 by Aurélien Hivonnet, Jean-Vincent Vallette, Frédéric Devige, and Gaël Tauvel. They are all united by a common passion for beauty and design.

SOLLEN is a specialist in singular seating that combines quality and elegance in the French style. They produce eco-responsible furniture that are built to last, with a lifetime guarantee.

SOLLEN is an internationally ambitious brand that promotes French craftsmanship.

They have partnered with designers and manufacturers who share the same commitment to responsible design.

the SOLLEN label

SOLLEN's seating is built to last, without ever going out of style, and are meant to be passed down through the generations.

The company offers a long-lasting after-sales service to ensure the promise of a lifetime product.

SOLLEN also displays its products online, specifically on B2B platforms for professionals such as Archiproducs or MoM. These platforms feature the company's 3D models, which are very useful for professionals in the industry.
